Art Unit: 1642

1. The Amendment filed July 2, 2007 in response to the Office Action of February 28, 2007 is acknowledged and has been entered. Claims 1-65 are currently pending.
2. Claims 11, 16-18, 21-26 and 29-61 were previously withdrawn from consideration as being drawn to a non-elected invention. It is noted that the response filed December 1, 2006 in response to the requirement for restriction mailed August 28, 2006 indicated that "local hyperthermia" was elected as the stimulus. Thus, amended claims 1-10, 12-15, 19-20, 27-28, new claims 62-63, and new claims 64-65, as drawn to a whole body increase in temperature, are withdrawn from consideration as being drawn to a non-elected invention. New claims 64-65, as drawn to a local increase in temperature, are under examination.
3. The following rejections are being maintained:

Claim Rejections - 35 USC 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.

Art Unit: 1642

4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

5. Claims 64 and 65 remain rejected under 35 USC 103, for the reasons set forth previously for claims 2-3, 9, 10 and 20 in the Paper mailed February 28, 2007, Section 17, pages 20-22.

Applicant argues that the Qi reference teaches the treatment of a cell line, not a subject as described in the current claims. Applicant further argues that the Qi reference discloses the treatment of cells by placing them in a 43°C incubator, rather than a local increase in temperature in a subject or a whole-body temperature increase as described in the current claims.

Applicant's arguments have been considered but have not been found to be persuasive. Given the dramatic results obtained in Qi, wherein large numbers of tumor cells were induced to undergo apoptosis following transformation with the p53 gene and heat treatment, one of skill in the art would have been motivated to extrapolate the in vitro results to in vivo tumor treatment. Given the success demonstrated in Qi, one of skill in the art would have had a reasonable expectation of success in such in vivo treatment.

6. No claims are allowed.

7. **THIS ACTION IS MADE FINAL.** See M.P.E.P. § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).

Art Unit: 1642

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
